

Oh, What a Year!

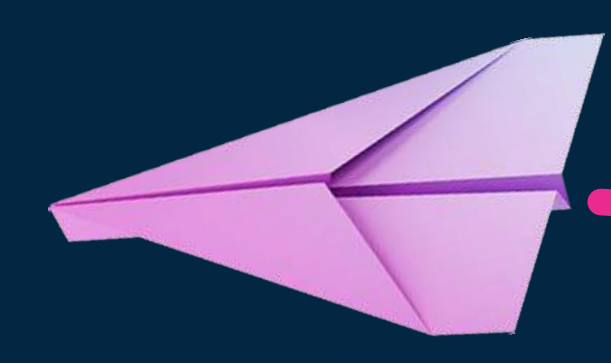

2020

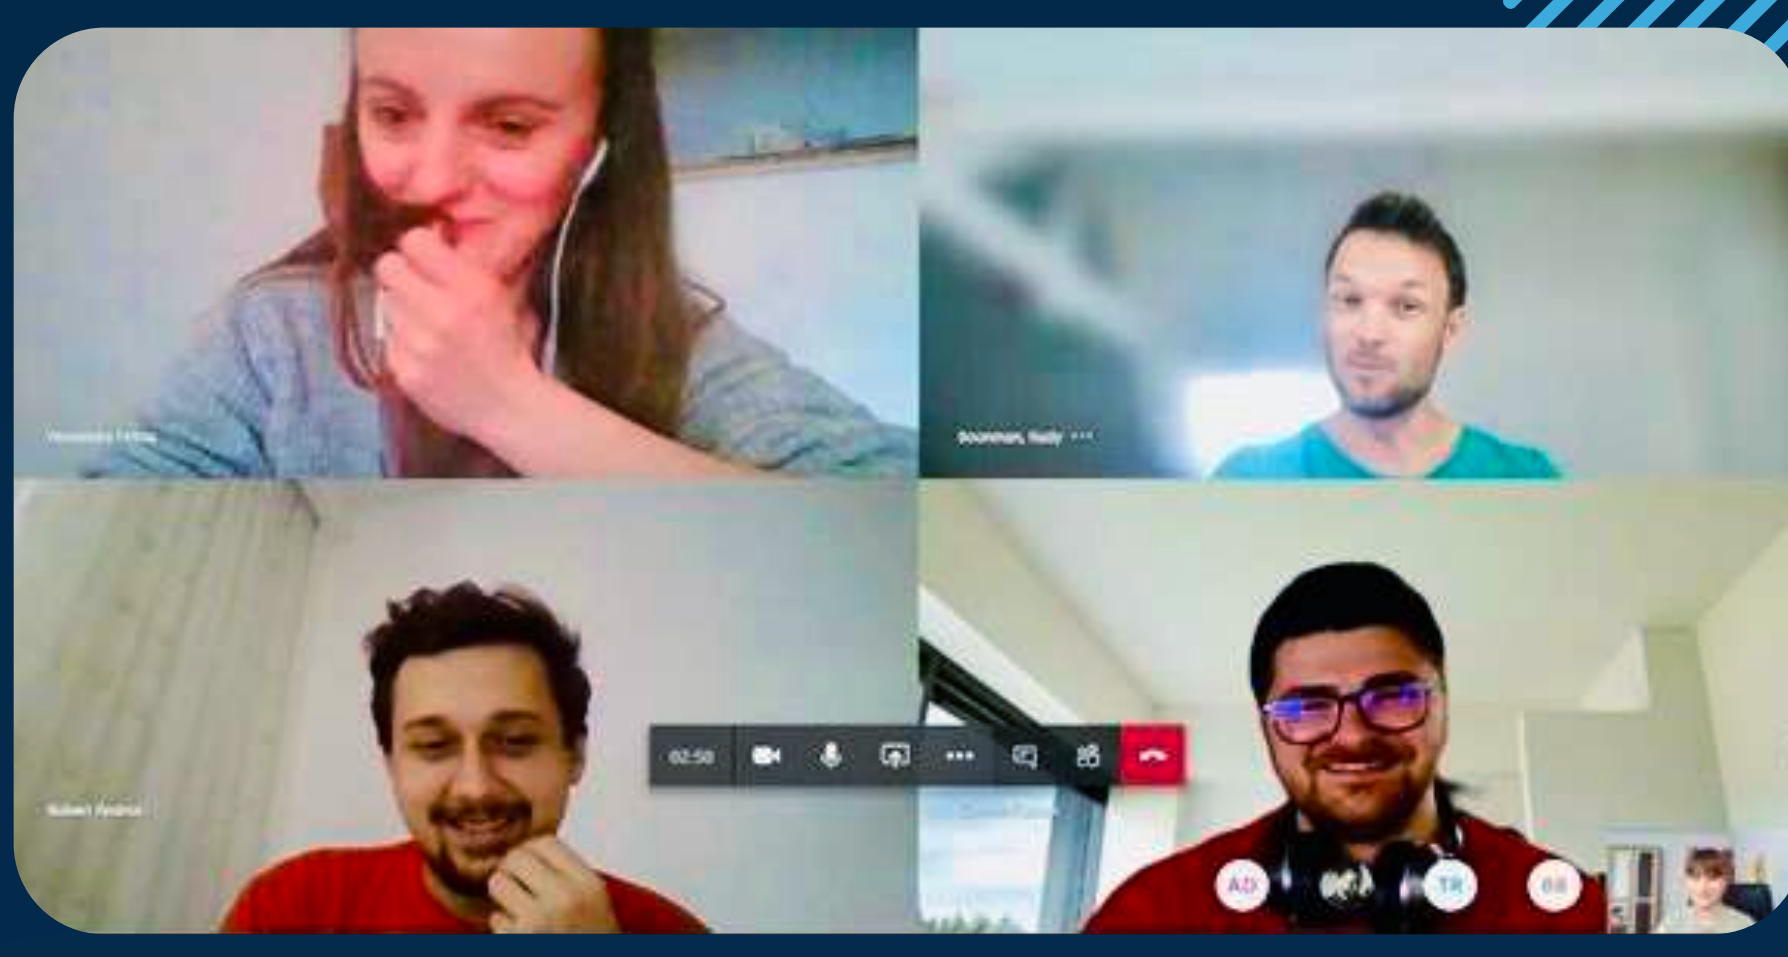

-  Team online celebrations
-  Online knowledge sharing
-  Personalizing online communication
-  Acknowledging the intensity of online meetings
-  Having a coffee corner chat online
-  Providing online mental support

From mid-September to mid-December: 9,200 Teams meetings

And we try to keep our meetings to 55 minutes. Online meetings are intense; we feel they are more intense than personal meetings. So people need regular breaks to stay fresh and focused

9 Remote Hackathons with customers in North America and Europe

Speaking at 4 events, giving 9 presentations

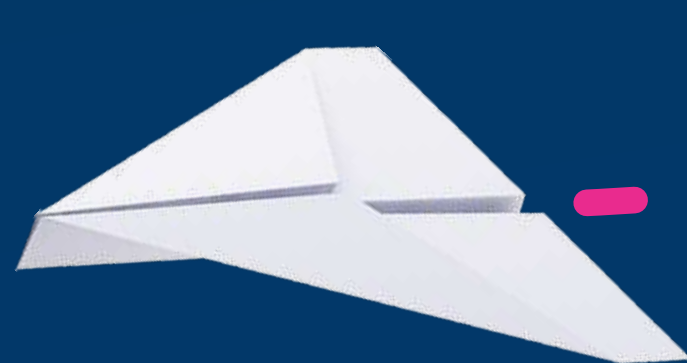

Presenting at online events allowed us to share our knowledge with our clients and prospects.

Hosting 11 webinars

Sharing insights and knowledge on:

-  Pragmatic Innovation
-  RPA, Robotic Process Automation
-  The state of mobile web development
-  Two on debt: technical and design debt
-  Domain-Driven Design for better solutions
-  Several quality assurance and testing topics
-  UX Design, improving your product in increments
-  LifeCycle Extension: keeping your legacy in line with the busines

New customers 2020

Staying connected, maintaining the relationship with each other and our clients and the market resulted in:

22

New customers

42

New projects

New projects and customers for long-term software development engagements as well as our consultancy services.

Yonder

We are the partner of software companies and enterprises solving their challenges by creating meaningful digital solutions. It starts with understanding the business goals of our clients. We combine our extensive experience in developing customer-driven solutions based on a flexible approach to our clients' domain knowledge. Mix that with our value-adding consultancy services, and we can help our customers to extend the life cycle of their solutions and stay relevant in their markets.
