

Oh, What a Year!

2021

Customers:

39 new customers, including long-term collaborations as one-off consultancy projects.
We ran 68 new projects, of which many were started and are ongoing.

Hackathons:

5 remote hackathons using technologies from Lidar and RPA, to .NET, Angular, Ionic, and React.

Team meetings:

We had close to 50,000 team meetings. And the good news is, that we also had meetings in the office when possible or outside.

Webinars:

In 2021, we had 7 webinars for clients and prospects, sharing our knowledge on:

-  Agility with Springboot
-  Single Sign-On with ADFS
-  Benchmarking and Performance Optimization – 2 webinars, follow up with Media Maestro Oy
-  Event Sourcing
-  Book of Creation – Kubernetes
-  Our Angular Migration Journey

Employees:

-  **8 graduates** of the Leadership Academy program.
-  **128 new people** joined our teams and there were some who left. We started the year with 307 employees, at the end of **2021 there were 347**. Growth is growth!
-  During the 12 internships in 2021, we had **54 people experience life at Yonder**, which is quite an achievement during a pandemic. We are excited to let you know that out of them **29 new colleagues** were hired.

Anniversaries:

-  At Yonder, we have **40 colleagues** who have been with us for **10 years or more**.
-  Of these, 10 celebrated their 10th anniversary with the company, and 7 are between 10 and 15 years of service.
-  And in 2021, 10 Yonderists celebrated 15 years with Yonder. That means that we have 13 colleagues who have been with us for more than 15 years!

Charities:

We donated more than **115,000 Euros** to social, education and health related causes.

Yonder

We are the partner of software companies and enterprises solving their challenges by creating meaningful digital solutions. It starts with understanding the business goals of our clients. We combine our extensive experience in developing customer-driven solutions based on a flexible approach to our clients' domain knowledge. Mix that with our value-adding consultancy services, and we can help our customers to extend the life cycle of their solutions and stay relevant in their markets.
